## Game Play

Give each player one 9-card deck. Players may look at their hand.

Players will play three (3) cards each round. The hand is reset each round.

Flip a coin to select first player. Players take turns as Offense and Defense. Each player takes five (5) offensive and five (5) defensive turns.

When played, the value of each card cannot be more than +/- 1 from the previous.

If the players end the round with the same combined value of all three cards, the Defense has made the save.

Whoever scores the most goals wins. If tied, the first player to score when their opponent does not is the winner.

All other results score a goal.

## Order of Play

Both players select a first card. It can have any value.

Both players select a third card and place it face down.

Place face down until both players are ready. Then reveal the Offensive player's card only.

When both players are ready, reveal all the cards and tally the points.

### Reveal Order
